

# Hunter McCormick

## United States Marine Corps Veteran

Passionate and creative aspiring video game designer with a background in graphic design, aiming to leverage my educational foundation and hands-on project experience. Excited to join a dynamic design team where I can apply innovative design solutions and technical skills to tackle real-world challenges in a professional setting.

## Education

2023- Present

### Graphic Design

Palomar College

## Certifications

- Computer Graphics Master Academy Level Design for Games
- Electrical Safety

## Skills

- Level Design
- Grey Boxing
- Unreal Engine
- 3rd Person Action/Adv
- Maya
- Scripting
- Adaptability
- 3D Modeling

## Internships

- AGBO Fall Semester

## Engines/Tools

## Experience

### Level Designer

Reboot Interactive

August 2024-Present

- Created engaging and interactive blockouts that capture the core gameplay elements, while encouraging player exploration and ensuring a smooth player experience
- Collaborated with other designers to assure levels meet the correct needs of game design, mechanics, setting and more
- Maintained accurate records of progress, changes and additions to the level and playspace

### Solar Technician I

Pearce Renewables

June 2022- January 2023

- Collaborated with project managers, electricians, and other team members to complete installations on schedule and within budget.
- Utilized advanced tools and software for system design, performance monitoring, and troubleshooting, ensuring precision and efficiency.
- Stayed updated on industry trends, new technologies, and regulatory changes to continuously improve skills and knowledge in solar energy systems.
- Diagnosed and resolved issues related to solar panel performance, inverters, and electrical components, minimizing system downtime.

### Heavy Equipment Mechanic

United States Marine Corps

October 2016-April 2022

- Supported mission readiness by ensuring all heavy equipment was operational and prepared for deployment, contributing to the success of military operations.
- Trained and mentored junior Marines on maintenance techniques, troubleshooting procedures, and safety practices, enhancing team competency and efficiency
- Collaborated with team members and supervisors to prioritize repair tasks and coordinate maintenance schedules, optimizing workflow and resource allocation.
- Maintained meticulous maintenance records and logs, ensuring compliance with military standards and documentation requirements.
